

# LOOKING FOR MORE DETAILS ?

Please take a minute and think about this. Haunted houses are not concerts, sporting events or theme parks. The nature of a haunted house is all about physical distancing; it always has been. Talon Falls being an outdoor attraction is on our side as contact tracing has proven that Covid-19 is far less contracted from being outdoors. The attractions are linear and very seldom would you ever come within 6 feet of other patrons. You are not sitting in a single location, elbow-to-elbow. You walk the attraction in a single file line with no wandering. We do everything we can to make you feel “alone”. But this year, we’re going above and beyond our normally safe and distanced methods of operation, and taking it to the next level. So here is what we are doing.

\*Please stay home if you’re not feeling well, our staff is doing the same. If you have been exposed to Covid-19 recently or have symptoms of Covid-19 ( Including a fever, cough, or shortness of breath), Please remain at home to prevent the spread of the virus.

\*All guests and staff will be required to adhere to local guidelines regarding the use of facial coverings. In addition, facial coverings will be required inside the attractions. Halloween is all about masks, so wear yours, bring it out for the season!

\*We know it’s dark out, but please read all signage and watch your feet. There will be plenty of informational and directional signage. We know it’s boring, but it’s important.

\*Please stay with your group. Heck, this isn’t bad advice normally.

\*Stay a minimum of 6’ away from all other guests, staff, and monsters. If you think we can’t scare you from 6’ away, just try us.

\*Buying your tickets online in advance is always the best price and ensures that you have your tickets before that evening sells out.

\*Forget your hand sanitizer? No problem, we’ve got you covered with plenty of sanitizer stations,

\*Please thank our clean team. Extra effort will be placed on sanitation this year, so when you see them, let them know you appreciate what they’re doing to keep everyone safe.

\*Please follow the instructions of our team members at all times.

# HOW WILL THE EXPERIENCE CHANGE? WE THINK YOU'LL LOVE IT.

\*Less waiting smaller groups going in, more spacing. . . it's what everyone has always wanted!

\*Attendance will be extremely limited each night. Get your tickets early; we sell out many nights so buy online in advance.

\*Private groups only. You will not be combined with anyone outside of the group you arrive with.

\*All queues lines are outside and will be physically distanced; please pay attention to all markings regarding where to or not to stand.

\*This year, we will be emphasizing maximum spacing between groups. Even with all of these precautions, we may still need your help! If you can see the group in front of you, slow down; if you can see the group behind you, speed up! There may be staff inside monitoring this, please pay attention to their directions.

\*No one will touch you when you are inside the haunt. You know the drill; don't touch the monsters and they will not touch you!

\*Anything hanging that you would need to push or squeeze through has been removed from the attractions.

\*All Actors and Staff are temperature screened and confirmed to be symptom free at the beginning of every evening.

\*The attractions is deeply sanitized at the beginning and end of every evening. As we've said we have always placed the utmost importance on your safety, and this year we're giving you 100%!

The show may seem a little different this year, in a good way.

Thank you for continuing to support and keep Talon Falls safe! We can't wait to safely celebrate the Halloween Season with you, see you soon!
